Step 1 — Battery

- Locate the battery door marked "BATT" on the bottom of the camera.

Step 2

- Pull the battery door tab upward and press in the direction indicated by the arrow on the tab.

Step 3

- Remove the battery by pulling the battery door outward.

Step 4

- Ensure that the clear plastic strip is **below** the new battery.

- Place the new 3 Volt CR2 Lithium Battery in the battery compartment.

After inserting new battery, close the battery door to finish repair.
