Sony Ericsson W200i Back Case Replacement

Replacing the case of the Sony Ericsson W200i.

Written By: Emily Prescott
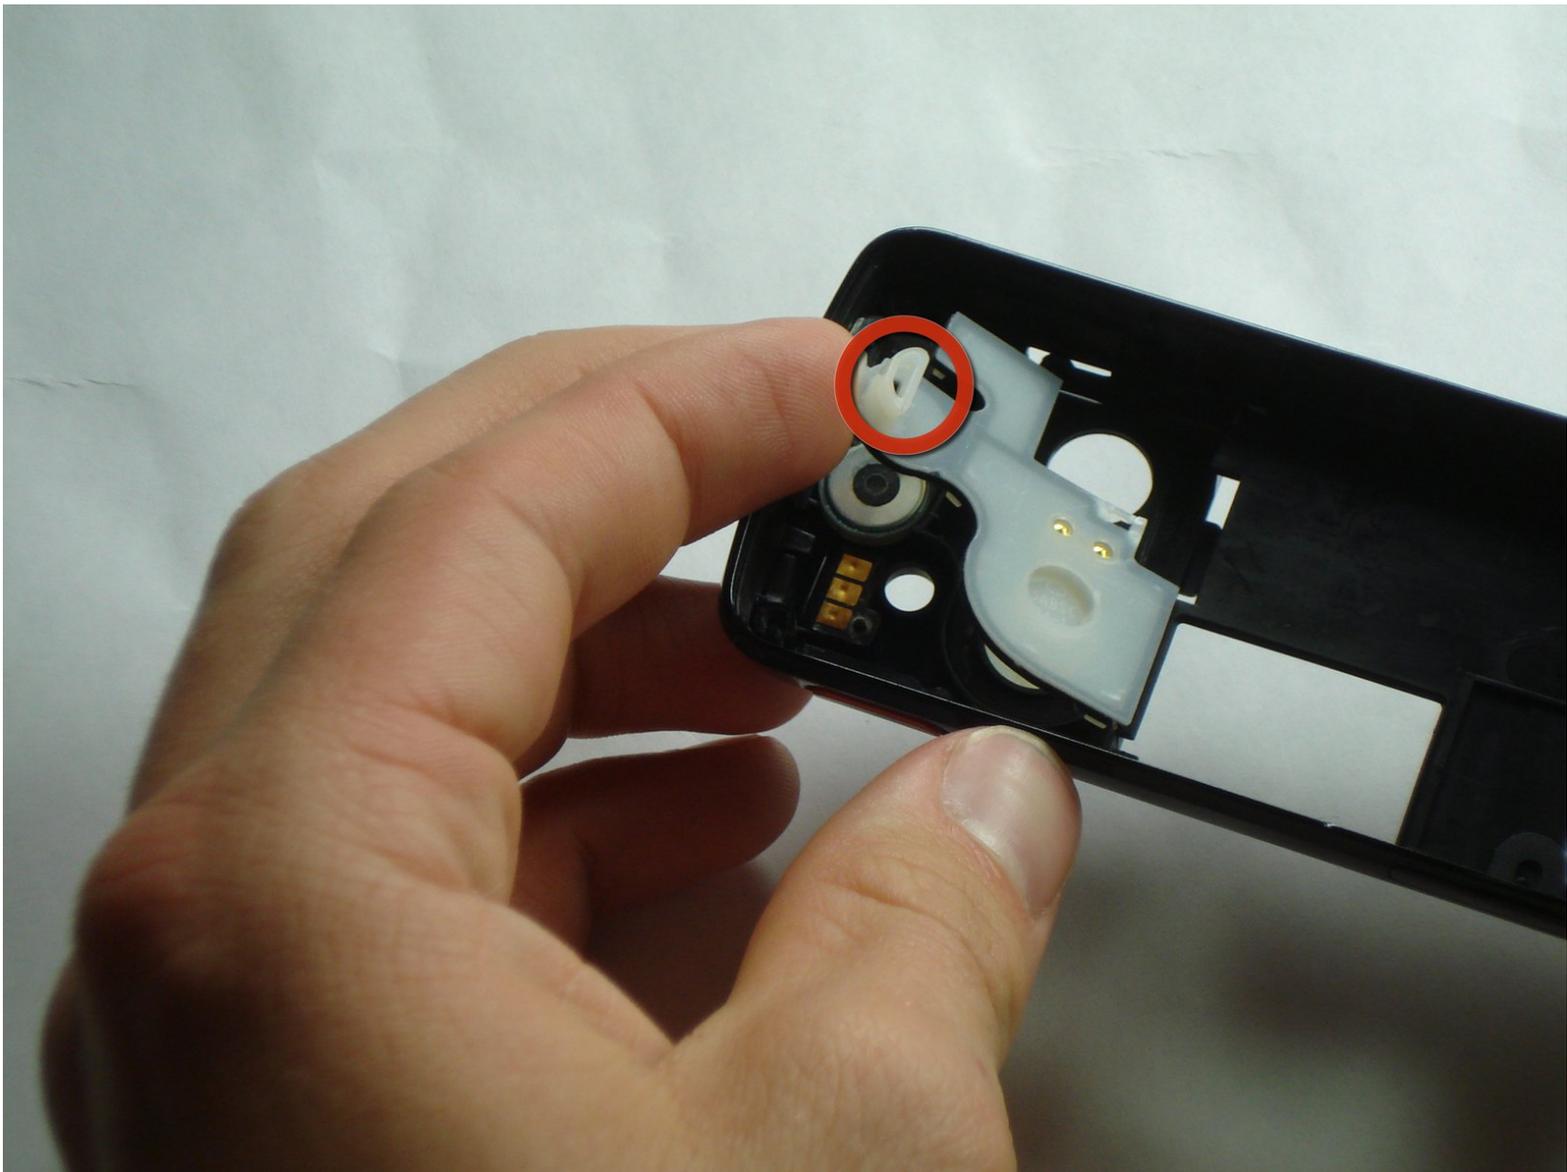

INTRODUCTION

Replacing the case is fairly easy, there will be small parts you will be removing so make sure you have a place to put them for safe-keeping.

🔧 **TOOLS:**

- iFixit Opening Tools (1)
- T6 Torx Screwdriver (1)
- Tweezers (1)

⚙ **PARTS:**

- Sony Ericsson W200i Case (1)

Step 1 — Disassembling Sony Ericsson W200i Battery

- Slide the battery cover up and off the phone.

Step 2

- Pop the battery out of its slot by lifting it up.

Step 3 — Front Case

- Insert the plastic opening tool in between the front case and the back case.

- Apply downward pressure to make the case lift upwards, thus popping the front case off.
  - ⚠ Use caution when removing the front case. It may seem stuck but just ease it out.

Step 4 — Core
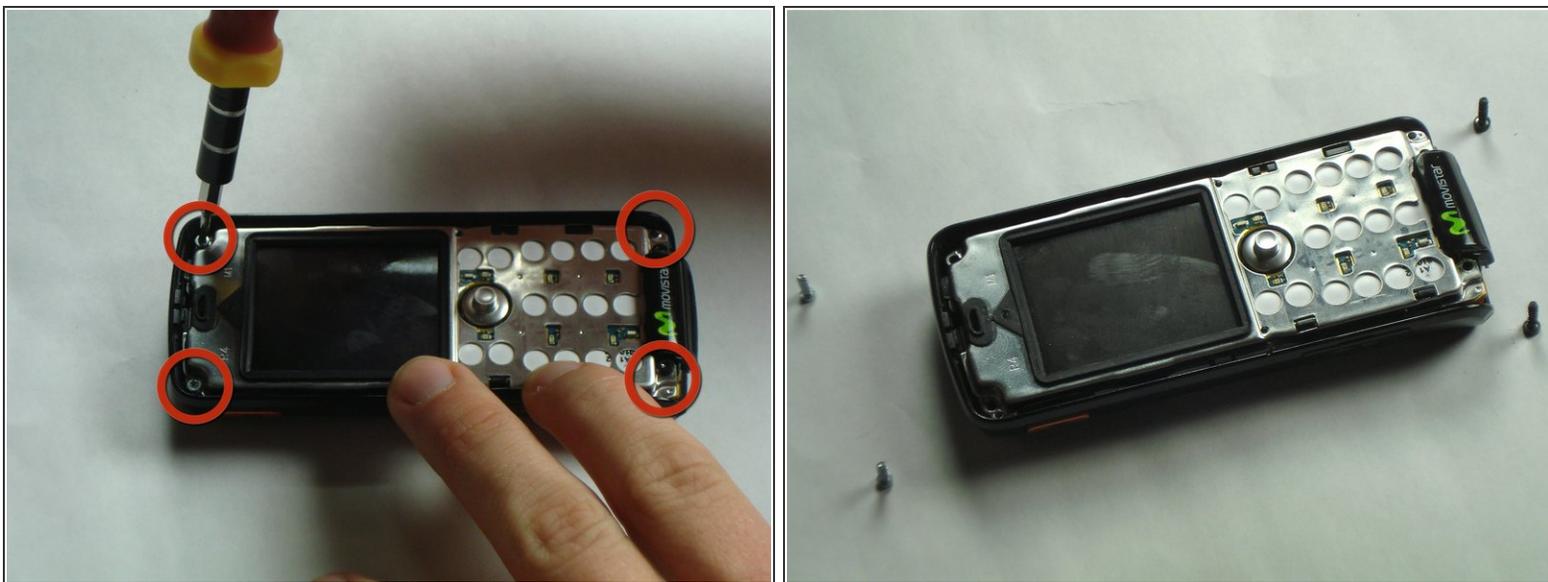

- Remove the 4 screws in the corners of the front of the phone using a T6 screwdriver.
 - ⓘ Note that the top 2 screws are silver and the bottom 2 screws are black.

Step 5

- There is a black tab in the top left corner holding the core in place.

- Remove the core by pulling straight up to prevent breaking the tab.

Step 6 — Back Case
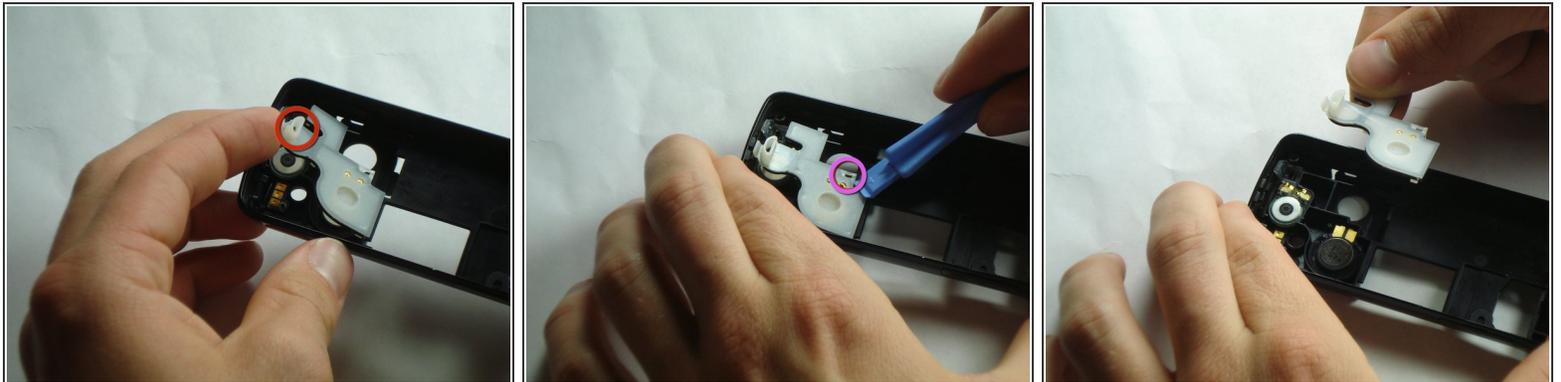

- Pull back on the indicated tab of the white plastic cover to unhook it from the top of the phone.

- Using the plastic opening tool, undo the indicated clip on the bottom of the white plastic cover.
  - Remove the white plastic cover.

To reassemble your device, put removed pieces into the new back casing, then follow the steps in reverse order.
