TOOLS:

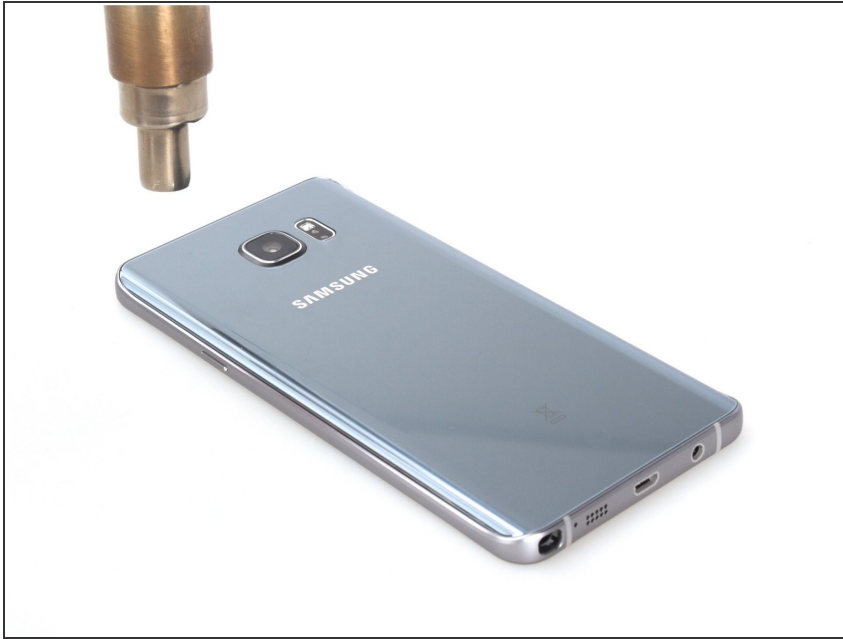

- [Heat Gun](#) (1)
- [iFixit Opening Picks set of 6](#) (1)
- [Suction Handle](#) (1)

PARTS:

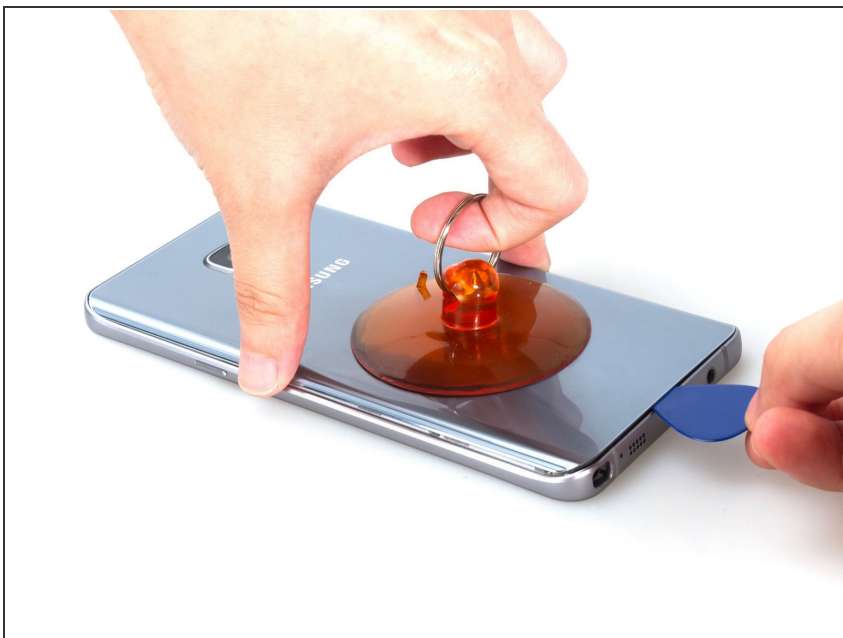

- [Samsung Galaxy Note 5 back cover](#) (1)

Step 1 — Samsung Galaxy Note 5 Back Cover Replacement

- Heat the back cover to melt the strong adhesive sticker underneath.

Step 2

- Try to pull and open a gap between back cover and frame after heat. Insert into a guitar pick to cut the sticker.

Step 3

- If you do it hardly, you need much more heat especially the edged side.
- Slipping a playing card through the gap is a good way to loosen up the adhesive.

Step 4

- Remove the back cover. The white stripe is the sticker.

To reassemble your device, follow these instructions in reverse order.
