

Samsung Galaxy Tab 4 7.0 Back Panel Replacement

How to replace a Samsung Galaxy Tab 4 7.0 back panel.

Written By: Briana Honeycutt

INTRODUCTION

We are going to show you how your plastic opening tools will allow you to remove the back panel of your tablet.

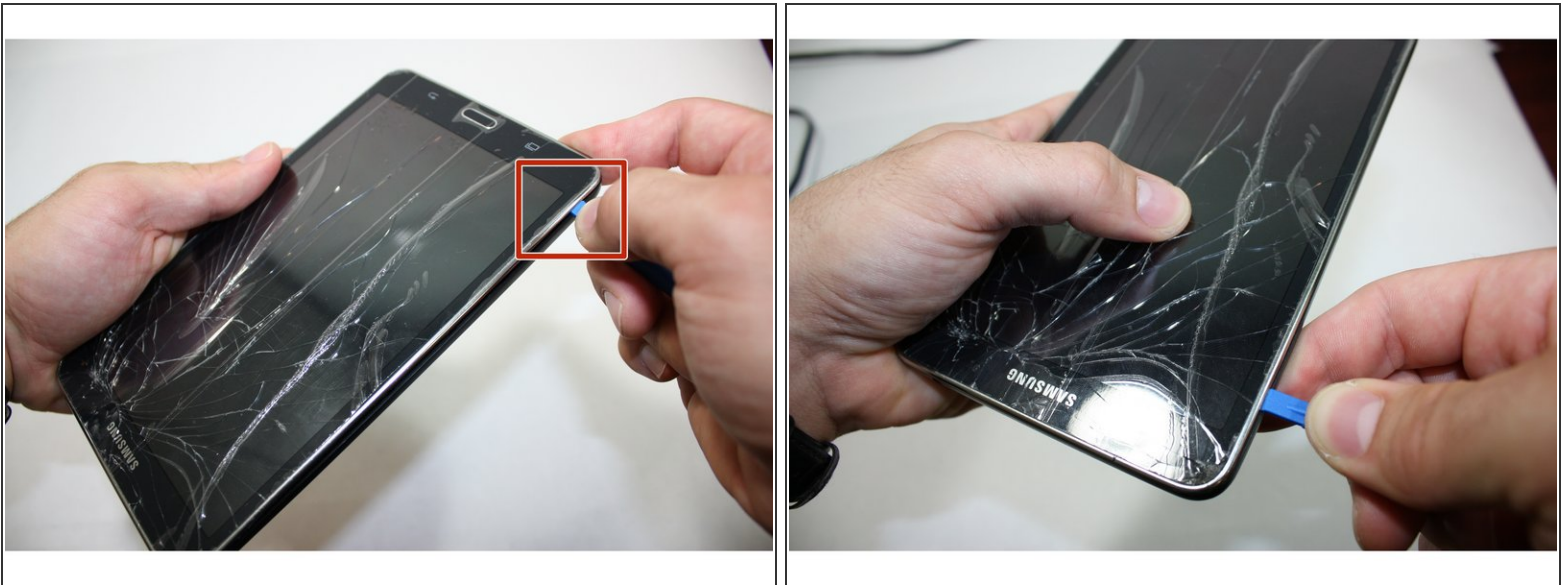

TOOLS:

- [iFixit Opening Tools](#) (1)

PARTS:

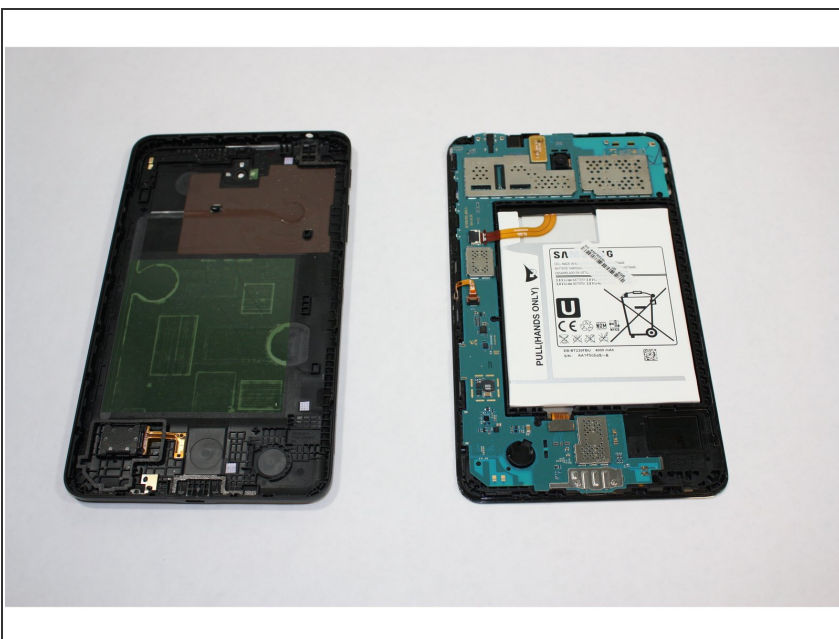

- [Galaxy Tab 4 7.0 Rear Panel](#) (1)
-

Step 1 — Back Panel

- Starting at any corner, insert the pry tool between the chrome screen frame and black phone housing.
- Slide the pry tool around the tablet while applying force to pry the screen away from the phone housing.

Step 2

- Carefully separate the rear housing from the front panel assembly.
