

Samsung Galaxy Tab 4 8.0 Verizon Rear Case Replacement

Replace the rear case.

Written By: Ofelia Cruz

INTRODUCTION

Use this guide to replace the rear case on your Samsung Galaxy Tab 4 8.0.

TOOLS:

- [iFixit Opening Tools](#) (1)

PARTS:

- [Galaxy Tab 4 8.0 Rear Panel](#) (1)

Step 1 — Rear Case

- ⓘ Before disassembling your Samsung Galaxy Tab 4 8.0, be sure it is powered off.
- At the top of the tablet, nudge the blue plastic opening tool between the back plastic casing and the front panel's metal rim.
- ⚠ Do not use excessive force when prying the clips, fastening the casing together, open because they can easily break.

Step 2

- Continue prying the blue plastic opening tool along the perimeter of the tablet to separate the back plastic casing from the front assembly panel.
- ⓘ As right-handers, we found it easiest to move clockwise and use more pressure around the corners to facilitate the process.
- ⓘ You might hear several popping noises caused by the plastic clips coming undone.

Step 3

- To avoid damaging the screen, gently set the tablet with the LCD screen faced down.
- Firmly grasp the back plastic casing and lift it away from the front assembly panel.

To reassemble your device, follow these instructions in reverse order.
