TOOLS:
- Heat Gun (1)
- iFixit Opening Picks set of 6 (1)
- Phillips #000 Screwdriver (1)
- Tweezers (1)
- Heavy-Duty Suction Cups (Pair) (1)
- Spudger (1)

PARTS:
- Sony Xperia Z5 Compact Screen (1)
- Sony Xperia Z5 Compact Back Cover Adhesive (1)
- Sony Xperia Z5 Compact Display Adhesive Strips (1)
Step 1 — LCD Screen Assembly

- Power off and remove SIM card tray.

Step 2

- Heat up the back cover to soften the adhesive.
- Place the suction cup to open a gap from top side, then insert guitar picks and slide it to cut the adhesive underneath.
- Remove back cover.
### Step 3

- Twist off 10 Phillips screws all.
- Loosen NFC clip and flashlight clip.

### Step 4

- Remove the plastic bracket.
- Pry up and remove back frame.
Step 5

- Remove front camera.

Step 6

- Remove rear camera.
Step 7

- Remove loudspeaker.

Step 8

- Release charging port connector.
- Remove plastic protective bar.
- Pry up motherboard assembly from this side. There are three flex connectors connecting the motherboard underneath. So pry up the motherboard assembly gently.
Step 9

- Push audio jack out of the slot, no adhesive underneath.
- Release LCD flex connector and main flex connector.
- Separate motherboard assembly from middle housing.

Step 10

- The sticker underneath LCD assembly is a little bit strong, so use heat gun to soften it for a few minutes.
- Remove LCD with digitizer assembly carefully.
To reassemble your device, follow these instructions in reverse order.
