

HTC Touch Pro 2 Camera Replacement

After removing the housing, you can remove the camera.

Written By: Melinda Phan

 **TOOLS:**

- [T5 Torx Screwdriver](#) (1)
 - [Tweezers](#) (1)
-

Step 1 — Battery

- Remove the back cover by applying pressure and sliding upward.
- Lift the back cover up and away from the phone.

Step 2

- Remove the battery by lifting upward from the slot located on the right hand side.

Step 3 — Camera

- Using a T-5 screwdriver head, remove the four screws in corners as shown.

Step 4

- Lift the part shown in picture 2 on the top side of the phone.
- There is a ribbon attached on the back of this part that requires caution to remove.

Step 5

- Use the tweezers to pull up and off the camera cover.
- Use the tweezers to pull up and the off camera.

To reassemble your device, follow these instructions in reverse order.
