PARTS:

- [iPhone 3G and 3GS SIM Tray](#) (1)
-

Step 1 — SIM Card

- i** Apple includes a "SIM eject tool" with the iPhone 3G. If you don't have this tool, don't worry, an ordinary paperclip works just as well.
- Insert your SIM eject tool or a paper clip into the hole next to the headphone jack.
 - Press down on the tool until the SIM card tray pops out.

Step 2

- Remove the SIM card from the SIM card tray.
- The cut-off corner should make it easy to reinstall the SIM card in the correct orientation.

To reassemble your device, follow these instructions in reverse order.
