## INTRODUCTION

Prereq only for stripping down the logic board.

    www.iFixit.com    

## Step 1 — SATA Data and Power Cables

ⓘ The SATA data connector has a clip that must be pressed to allow removal.

● While pressing on the clip with your thumb, lift and disconnect the SATA data connector from its socket on the logic board.

## Step 2

● Grasp the hard drive power connector and gently pull it out of its socket on the logic board.

To reassemble your device, follow these instructions in reverse order.
