

Checking and Setting Palm m105 Contrast Settings

This guide will help you to set and verify the current contrast level of the display.

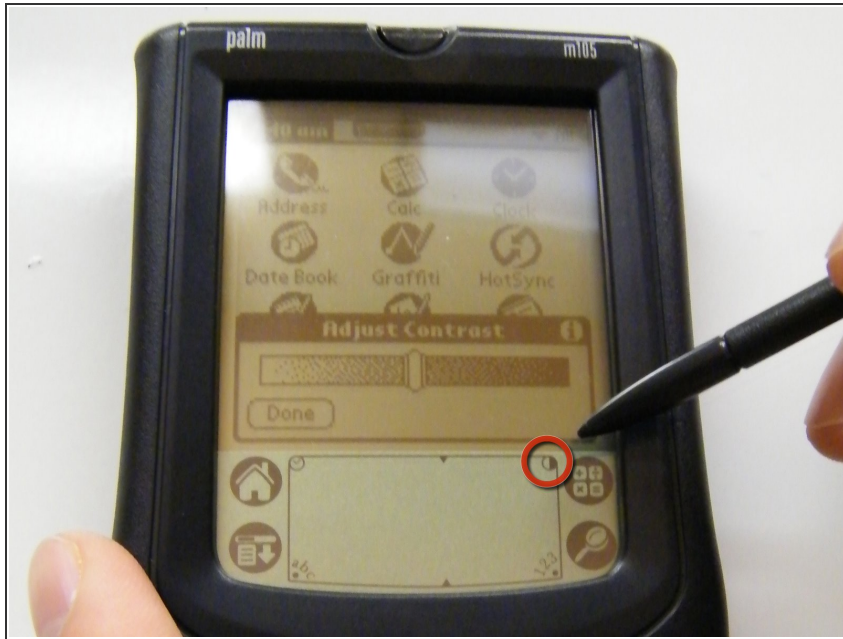

Written By: Erik Thompson

INTRODUCTION

Make sure you have your stylus or display pointing tool before using this guide.

Step 1 — Contrast Settings

- Turn on the Palm m105. Press the Contrast icon (circle that is half filled) in the upper-right corner of the stylus writing area. If the contrast dialog box appears, adjust the contrast level by holding down the 'up' scroll button for 3 seconds to increase contrast or the 'down' scroll button to decrease contrast.
- ****NOTE**** If this doesn't work, hold down the respective scroll button again for a longer period of time

To reassemble your device, follow these instructions in reverse order.
