# NABI XD Battery Replacement

This guide will show how to take the battery out of the Nabi XD.

Written By: Marissa Schiereck

## INTRODUCTION

Has the battery been damaged or the device won't charge. Changing the battery may fix these problems.
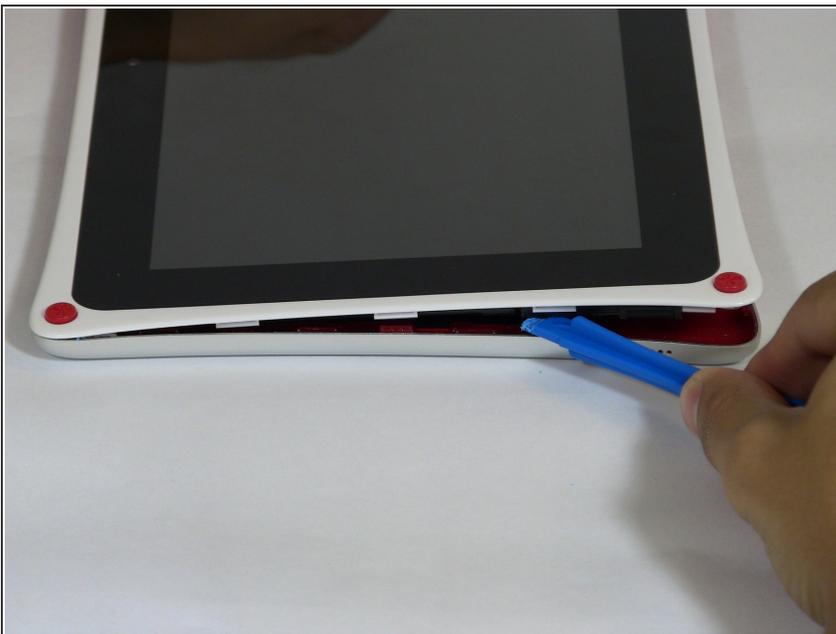

🔧 **TOOLS:**

- iFixit Opening Tools (1)

## Step 1 — Rear panel

- Use the plastic opening tool at the top left corner seam, then pry the corner apart.

## Step 2

- Next slide the plastic opening tool across the sides of the Nabi. It will slowly open.

- There are small plastic clips that need to be release. Gently apply outwards pressure until the clips give.

- Go around the NABI XD and separate the rear panel from the device.

## Step 3 — Battery

- Place your fingernails on both sides of the connector and pull it straight back away from the holder.

## Step 4

- (i) Battery is glued to the base, lift carefully.

- To remove battery, lift the battery up from the motherboard.

To reassemble your device, follow these instructions in reverse order.
