Step 1 — Your Account

- First, create your iFixit account. At the upper right corner of the iFixit homepage, click the button that says "join." Fill out the required info then click "Create my account."

- Then, you should edit your account to include info about you. Go to your account and write a short "about." Don't forget to include a picture and @username!

Step 2 — Your first Question
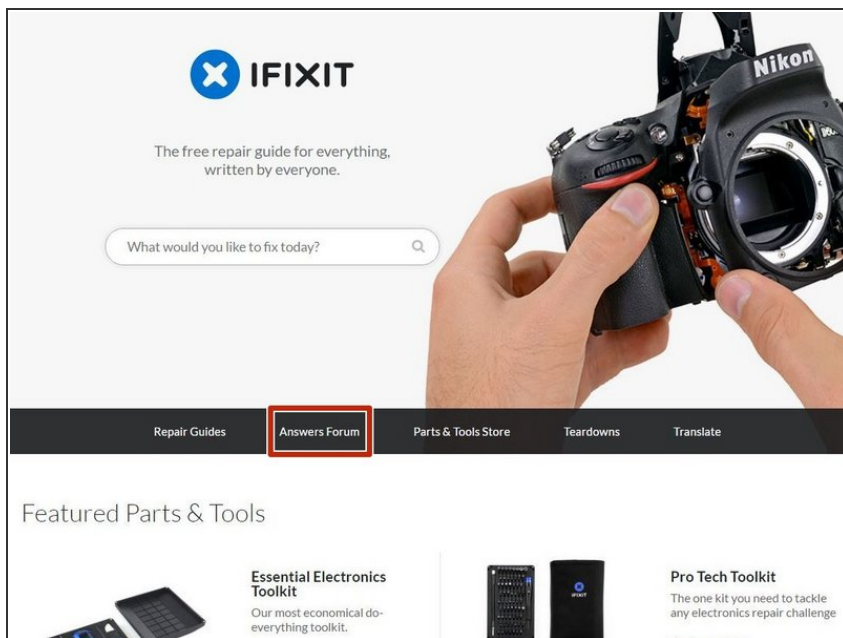

- Now, you'll want to write your first question. Click the "Answers forum" button.
