INTRODUCTION

This guide shows you how to install the front panel of your camera.

🔧 TOOLS:

- Phillips #00 Screwdriver (1)
- Spudger (1)

Step 1 — Front Panel

- Using a #00 Phillips screw driver, remove three 4.4 mm Phillips screws as indicated by the red circles.

Step 2

- Using your finger, peel back the textured grip so the components are separated.

Step 3

- Using the flat end of a spudger, loosen the connection between the front panel and the device.

- Remove the front panel using your hands.

To reassemble your device, follow these instructions in reverse order.
