Step 2 — Lower Case

- Remove the seven T8 Torx screws from the lower case.

- Using your thumbs, slide the lower case toward the front of the computer.

- The lower case may stick in the front on a tab just above the center of the optical drive. Be careful as you work the case off, or you may break the thin strip of plastic just above the drive.

- Lift the lower case off.

Step 3 — Airport Card

- Firmly grasp the plastic tab attached to the Airport card and pull up and to the left.

- Disconnect the antenna cable from the left side of the Airport card.

To reassemble your device, follow these instructions in reverse order.
