

Novatel MiFi 2200 Case Replacement

Splitting the case of the Mifi 2200 is necessary to be able access the internal parts. This is how to go about that.

Written By: Justin Russo

INTRODUCTION

Splitting the case of the Mifi 2200 is necessary to be able access the internal parts. This is how to go about that.

TOOLS:

- [Metal Spudger](#) (1)
-

Step 1 — Battery

- Remove the rear cover by pressing down on the cover and pulling it away from the device.

Step 2

- Place your finger on the back of the battery located near the edge of the device.
- Push your finger into the battery and lift up to pop the battery out of the device.

Step 3 — Case

- Using a metal spudger, pry open the device around the seam between the front and back cover.
- ⚠ It may be difficult to split apart, so use force with caution.
- ⓘ It may seem like you are breaking the device, but you will only be breaking the adhesive lining that keeps the device sealed.

Step 4

- Once the seal has been broken all the way around, open the cases using your hands.

To reassemble your device, follow these instructions in reverse order.
