

Turtle Beach Ear Force Stealth 500P Earpad Assembly Replacement

Remove the Earpad Assembly of the Ear Force Stealth 500P to access the interior components.

Written By: Noah Franklin

INTRODUCTION

Use this guide to remove the Earpad Assembly of the Ear Force Stealth 500P and access the interior components.

TOOLS:

- [Phillips #1 Screwdriver](#) (1)
-

Step 1 — Earpad Assembly

- Remove the ear pad from the earphone by gently pulling the cloth pad outwards from the slot holding the cloth.
- Work circularly until removed.

Step 2

- Using a Phillips #1 screwdriver, remove the four fastening screws that hold the blue plastic speaker mount in place.
- Gently pull blue plastic from black housing by hand until separated.

To reassemble your device, follow these instructions in reverse order.
