

HTC Vive Strap and Cables Replacement

This guide will show you how to replace the HTC Vive's straps and cables.

Written By: Caleb Watts

INTRODUCTION

The HTC Vive's strap and cables can loosen or fray over time. This guide will show you how to replace the Vive's straps, sound cable, and Three-in-One cable.

Step 1 — Straps and Cables

- Slide the HTC panel covering the cables forward, away from the Vive.
- Gently pull on each of the four connectors to remove the sound and Three-in-One cables.

Step 2

- Undo the hook and loop tape on the straps.
- Slide the ends of the straps through the hinge loops.

To reassemble your device, follow these instructions in reverse order.
