

Philips Phone CD295 Disassembly

Disassemble Philips Phone CD295 to clean the keyboard contacts

Written By: Keul

 **TOOLS:**

- [tournevis cruciforme \(1\)](#)
-

Step 1 — Philips Phone CD295 Disassembly

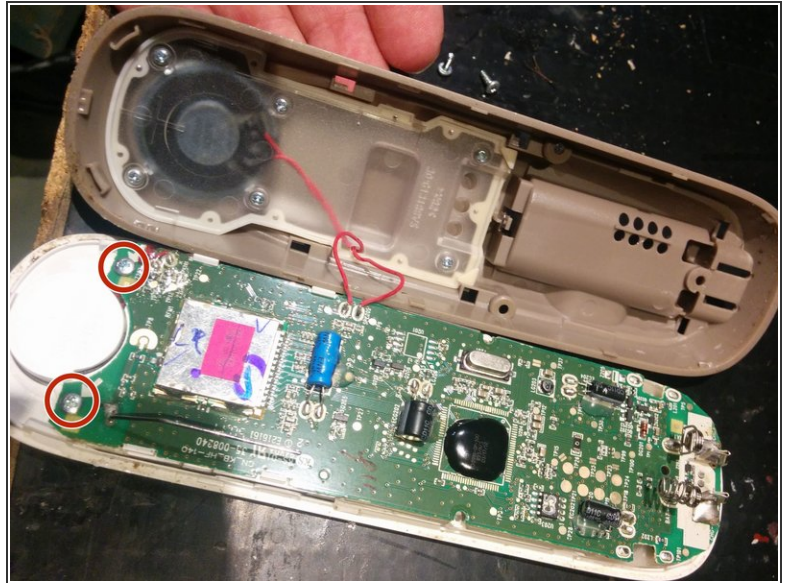

- Open the back by sliding it down

Step 2

- Remove the batteries and the 3 screws

Step 3

- Separate the white part of the brown one with a steel plate.
- Take care of the red cable of the back speaker
- The spings of the battery can go trough the hole as shown in the second picture.
- Remove the 2 screws.

Step 4

- You have now access to the keyboard and can clean it.

To reassemble, follow instructions in back order
